Understanding Child Custody in California

California law recognizes two primary types of custody:

- **Legal Custody:** The right to make significant decisions about your child's upbringing, including education, health care, and religious instruction.
- **Physical Custody:** Where and with whom the child lives.

Custody arrangements can be joint, where both parents share responsibilities, or sole, where one parent has exclusive rights. The court's primary focus is always the best interests of the child, considering factors like the child's health, safety, and welfare, as well as the nature and amount of contact with both parents.
